You choose the optimum spot and make the biggest impact with your choice of eye-catching pictures, graphics and media files.

Digital display screens are great. Or rather they can be, if they're put in the right place, and people can actually see them clearly. The Teksmart Indoor Freestanding Display is especially slim and elegant, and crucially, it's freestanding so it's designed to fit in just about anywhere. Available in a wide range of sizes: 32", 43", 49", 55", 65", 75" and 84", each display has built-in speakers.

Features:

- Highly configurable 'built to order' hardware
- Built for 24/7 commercial use and designed for public spaces
- High definition screen with a wide viewing angle
- Tablet styling and super slim profile
- Integrated premium quality speakers
- Ports are kept secure within a lock protected compartment

Configure:

To ensure that our products meet your exact requirements, we offer highly-customisable solutions. First pick your perfect size, and then configure your display based on the following options:

1. Colour: Black or White?

Choose from either black or white. Both look great! Which do you prefer?

2. Integrated Media Player: What Specification?

Choose from the following options:

- Entry-Level Android OS Media Player
- Enterprise-Level Windows OS (i3 PC) Media Player
- Premium-Level Windows OS (i5 PC) Media Player

... Or even opt for no media player (if you plan to connect to an external source).

3. Touchscreen Functionality: Yes or No?

You can decide whether you want your display to have an integrated touch-screen or not.
